

(Senior) Web Developer (f/m), Munich

As part of our product team you will work on the frontend applications that enable our customers to analyze their TV spend in detail. Based on our devops mentality you will ensure a seamless integration with the backend services and/or create the needed backend services to enrich the functionality of the frontend applications.

Who We Are

wywy is a young adtech company based in the center of Munich with offices in New York and London. We develop and operate TV analytics solutions that enable advertisers to analyze the impact of their TV campaigns on their websites and apps.

Your Responsibilities

- Design, build, operate and troubleshoot our applications in an agile team setting
- Own new features and products within their entire lifecycle from the idea to production
- Continuously improve and ship our applications as often as possible to production

Within the first week, you will have pushed your first assignment into production. Within a month, you will have held your first tech talk. Within a year, you will be the new table football champion or have stopped playing it months ago.

What We're Looking For

Minimum qualifications:

- A degree in computer science or a related technical field, or equivalent practical experience
- Experience with HTML5, CSS and Javascript, with in-depth knowledge of Single-Page-Applications, preferably AngularJS
- Experience building web services
- Experience working in a test-driven, automated build and deploy environment
- Experience working in a Linux environment and configuring services on your own
- Very good English language skills, German language skills a plus
- Must be eligible to work in the European Union

Preferred qualifications:

- Expertise in one or more of these languages: Python, Go, PHP, Java
- Expertise building scalable web services in a globally distributed environment
- Expertise in automation from the build pipeline, the deployment to provisioning hosts for the first service deploy.

If you think that you would be a good fit for our team and our culture matches the way you want to work, you are welcome to send us an email with the subject "Web Developer" to Mr. Stefan Modl (stefan.modl@wywy.com).
